Q> Write an outline on the essay 'Life in pandemic era'

Ans: Essay topic: Life in pandemic era

I. Introduction - Major idea - The pandemic era is incarnation of self care.

① Supporting idea - 7.3 billion people in the world to stay indoors for atleast three weeks to slow the spread of corona virus internationally.

② Supporting idea - The pandemic has put the purpose and meaning of life front and centre, reconfiguring priorities and needs as virus infected months drift by.

③ Supporting idea - Being kind to oneself is especially important during the pandemic where every aspect of human life has been reshaped and there is little control over what's next.

④ Supporting idea - A deeper importance - "It's a roller coaster - up on some days, when you did all the things you wanted to do and self-satisfied, while down on others, depressed," says Dr. Vaile Wright, a senior director at the American Psychological Association. Self care being one dimensional way of coping during stressful times, a surge sharp increase in anxiety and disorder has been studied.

II. Major idea - The frontline corona warriors and their role in the pandemic situation.

① Supporting idea - Doctors, nurses and many other healthcare

sectors have donned the role of a brave medical army, fighting against corona virus.

① Supporting idea - The role of police is acknowledgeable. Their authoritative power and their sheer determination to enforce lockdown in every ~~strata~~ of locality has played a crucial role part in mitigating the spread of virus.

② Supporting idea - In few months since the outbreak of the virus in Wuhan city in the Hubei Province of China, researchers around the world have embarked upon an almost undeclared joint venture to ascertain the characteristics of the virus. Bio-scientists have worked round the clock in devising a potential cure for COVID-19.

III. Major idea - Change of profession and the plight of people.

① Supporting idea - The economy around the world has taken a serious hit forcing everyone to fight the pandemic in the best way they can.

② Supporting idea - With public constructions coming to a stand-still and 98% of public transport suspended for unprecedented time, the migrant workers had no other choice but to rely on physical strength in returning back home. Many died on their way back.

③ Supporting idea - Nearly 68% of workers in major industries and companies had to be laid off prematurely and most of them had to move to undertake meagre income professions to provide ~~basic~~ necessities.

④ IV. Major idea - In perspective of celebrities and influencers.

Ⓐ Supporting idea - Many celebrities around the world have harnessed their star power to try and raise spirits online, dubbing illness - ~~the~~^a great unifier.

Ⓑ Supporting idea - Some 200 celebrities and politicians - including billionaire Oprah, superstar actress Julia Roberts and US president George W Bush - participated in a 24 hour long "Call to Unite" livestream event to encourage donating to COVID-19 relief efforts.

Ⓒ Supporting idea - Many Indian actors have deployed their wealth including entertainment mogul Sonu Sood who stood beside the daily earner community during their time of need.

Conclusion -

⑤ V. Major idea - Government's role in different countries - their incapacitative initial measures.

Ⓐ Supporting

Ⓐ Supporting idea - All countries are vulnerable to the everpresent threat of infectious infectious diseases.

Ⓑ Supporting idea - Not everyone was prepared for the toll of the pandemic, - virus spread like wildfire among - leaders of several countries failed to impose proper lockdown in their countries that which ultimately led to the deaths of millions.

Ⓒ Supporting idea - But with the coherence of people from different strata of society, the virus is presently under control - Rapid vaccination has enabled people to ~~embrace~~ provided people with a new lease of life.
